## Dear Sir,

## Kindly perform all steps after connecting AC adapter.

1. Start>>Run>>Prefetch and delete all the files under this folder.

Run	? 🔀
-	Type the name of a program, folder, document, or Internet resource, and Windows will open it for you.
Open:	prefetch 💌
	OK Cancel <u>B</u> rowse

2. Start>>Run>>%temp% and delete all the contents (some of the files cannot be deleted so leave those files)

Run	?×
-	Type the name of a program, folder, document, or Internet resource, and Windows will open it for you.
<u>O</u> pen:	%Temp%
	OK Cancel <u>B</u> rowse

3. Press win+r key>>Type msconfig>>Select Services Tab>>check the options Hide All Microsoft Services>>Select Start up tab>>uncheck unwanted options.

 4.] Disable Remote Differential Compression.
Start >> Control Panel >> Programs & Features >> Turn Windows Features On or Off

#### Tasks

#### View installed updates

Get new programs online at Windows Marketplace

View purchased software (digital locker)

<u>Turn Windows features on or</u> off

Install a program from the network

### Uninstall or change a program

To uninstall a program, select it from the list and then click "Uninstall", "Change", or "Repair".
